Art Unit: 2133

Claims 1-15, 18-34 and 37-44 are allowed.

The following is an examiner's statement of reasons for allowance: Okamura *et al.* (200/30043939) claims the determination of a frequency distribution of a path metric difference to evaluate the quality of a signal in contrast to claims 29-34, 37-40 and 43-44 of this application which recite the use of a path metric difference (not the frequency distribution thereof) to determine signal quality. All of applicant's claims recite determination of the difference between a correct path and an error path which is not shown in any other cited reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to R. Stephen Dildine whose telephone number is (571) 272-3820. The examiner can normally be reached on M - F 5:30 am to 2:00 pm.
